DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 4-10, and 13-19 are rejected under 35 U.S.C. 102(b) as being anticipated by Imoto et al. (US 4755008).

Imoto et al. disclose a hydraulic brake system (see Figs. 5 and 6) for supplying a braking output (230) to a vehicle having at least one wheel, the braking system including a primary valve assembly 12 configured to receive a manually controlled input 14 that varies the braking output, the primary valve assembly including a first spool valve (the spool valve is within the master cylinder, 12) configured to vary the braking output according to the manually controlled input, and a secondary valve assembly 201 integral with the primary valve assembly (via line 227), the secondary valve assembly being configured to receive input signals from a programmable electronic controller (ECU) the secondary valve assembly including a second spool valve 221 configured to be operated with the primary valve assembly; and an actuator (solenoid 242 and armature 245) for engaging and actuating the second spool valve according to the input signals received from the programmable electronic controller such that the second spool valve assists the braking output produced by the primary valve assembly.

Re claims 4-10 and 13-19, see Figs. 5 and 6 and the abstract.

Allowable Subject Matter

3. Claims 3, 12, and 20-23 are allowed.

Response to Arguments

4. Applicant's arguments with respect to claims 1 and 10 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Takayama discloses a related device.
6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 3683

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Benjamin A Pezzlo whose telephone number is (703) 306-4617. The examiner can normally be reached on M-F 9-5.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jack Lavinder can be reached on (703) 308-3421. The fax phone numbers for the organization where this application or proceeding is assigned are (703) 305-7687 for regular communications and (703) 308-3519 for After Final communications.
